

## 2004 V8 Monaro

Price list valid until end March 2010

Essential pac			
parts in kit	The first crucial upgrade, and a must for Monaro owners, this wortec Essential pac delivers improved throttle response, increased spread of torque/power and up to 45bhp increase in Power, with the added bonus of improved fuel economy.		
Re-programme PCM			
<b>TOTAL</b>			<b>£500.65</b>

Sports pac			
parts in kit	This is the second upgrade pac which hones the work done in the Essential pac. This pac also delivers vastly improved throttle response, a greater level of torque and approx 55bhp over standard. With the addition of a great exhaust note.		
Re-programme PCM			
Cat-back Exhaust			
Air filter			
CAI upgrade			
Maf pipe			
<b>TOTAL</b>			<b>£1,632.73</b>

Performance pac			
parts in kit	Offering a significant increase in torque and power, the wortec Performance pac offers an outstanding improvement over all engine speeds. The tubular headers enhance engine inhalation and fully liberate the true potential of the V8 engine. Torque is superior and the increase in power is now up to 80bhp over standard.		
Re-programme PCM			
Cat-back Exhaust			
Air filter			
CAI upgrade			
Maf pipe			
Wortec headers			
2004 cat pipes			
heat shields			
2004 O2 looms			
<b>TOTAL</b>			<b>£3,442.78</b>

Focus pac			
parts in kit	Additional engine management enhancements go further with the wortec Focus pac building on power and torque of previous pac's and creating ecstatic pace and acceleration in all gears. Power is now up to 95hp over standard. Gear changes bring on the true music of the V8 engine.		
Re-programme PCM			
Cat-back Exhaust			
Air filter			
CAI upgrade			
Maf pipe			
Wortec headers

Wortec Performance Upgrades

# 2004 VXR Monaro

Price list valid until end March 2010

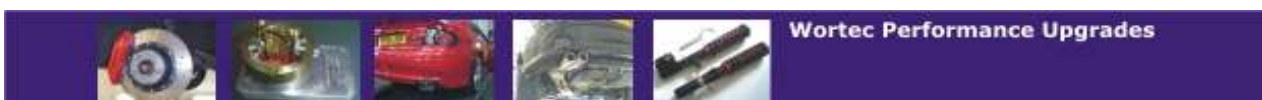

Essential pac			
parts in kit	This is the first upgrade pac and is an absolute must for all Monaro owners. This pac delivers massively improved throttle response, a better spread of torque and approx 25bhp increase over standard. In addition, the Essential pac offers a small improvement in fuel economy and a big improvement in sound.		
Re-programme PCM			
<b>TOTAL</b>			<b>£500.65</b>

Performance pac			
parts in kit	The Performance pac pushes the power output even higher. Again, the Performance pac delivers vastly improved throttle response and a large increase in torque at all engine speeds. Power output increases to approx 40 bhp over standard.		
Re-programme PCM			
Cat-back Exhaust			
Air filter			
CAI upgrade			
Maf pipe			
Maf sensor+pipes			
<b>TOTAL</b>			<b>£1,990.35</b>

Focus pac			
parts in kit	This pac for the VXR means business! Turn your car into a trackday weapon! The Focus pac offers all the benefits of the Performance pac but with yet another increase in power and torque to add approx 65 bhp over standard.		
Re-programme PCM			
Cat-back Exhaust			
Air filter			
CAI upgrade			
Maf pipe			
Maf sensor+pipes			
Wortec headers			
2004 cat pipes			
heat shields			
2004 O2 looms			
<b>TOTAL</b>			<b>£3,800.39</b>

2004 CV8 & VXR Exhaust systems	
	All Wortec exhaust systems have the option of a loud or quite setting. On the 2004 Monaro this is via an interchangeable center section on the system. All parts are included to allow you to increase or decrease the sound of your
